EDUCATION & AWARDS

Master's in Data Science, University of Denver, Denver, CO, USA

August 2021

- GPA: 3.91/4.00
- Relevant Courses: DS Mathematics 1 & 2, DS Statistics 1 & 2, Database Organization & Management, Algorithms, DS Tools 1 & 2, Machine Learning, Data Mining, Data Visualization, Parallel and Distributed Computing for Data Science.

Full Stack Web Development Certification, Thinkful, New York, NY, USA

August 20

Modules included: Front-End & Back-End Fundamentals, Front-End Frameworks, Computer Science Fundamentals & Server-Side JS.

Bachelor of Commerce, University of British Columbia, Vancouver, BC, Canada

December 2015

• Specialization: Accounting

KDnuggets Silver Blog - March Award, Award Link

April 2021

• Earned the KDnuggets Silver Blog March award for having over 9000 views for my article: "The Portfolio Guide for Data Science Beginners".

Streamlit New User of the Month Award, Award Link

March 2021

• Earned the new user of the month award for my COVID-19 dashboard (web app) and articles that I shared.

SKILLS

- **Programming Languages:** Python, R, JavaScript.
- Data Science: Data Cleaning & Wrangling (Pandas, NumPy), Data Visualization (Matplotlib, Seaborn, Plotly, Folium, Geoplot, Ggplot2), Big Data (Spark), Statistics, Hypothesis Testing, Modeling, Interpretation.
- Machine Learning: Scikit-Learn, Supervised ML, Unsupervised ML, TensorFlow, Keras.
- Databases & Others: SQL, MongoDB, Relational Algebra, ER Modeling, GitHub, Git, Streamlit, Heroku, HTML, CSS, Node.JS.

WORK EXPERIENCE

Data Science Internship, Opeeka, Sacramento, CA, USA

June 2021 – Present

Assistant Analysis, Vancouver Whitecaps FC, Vancouver, BC, Canada

January 2015 – February 2018

- Developed 34+ in-depth analytical reports per season on the opposition through data collection and uncovering of patterns and trends to the MLS coaching staff.
- Led the analytics department, consisting of one full-time analyst and three interns after losing the supervisor. Managed the department during the transition phase without a drop in output by providing consistent analytical services to the coaching staff, players, and senior leadership.
- Presented results of the analysis to coaching staff weekly and wrote requested executive summary detailing the analytics department's current state to senior leadership.

Performance Analyst Internship, Vancouver Whitecaps FC, Vancouver, BC, Canada

June 2014 – December 2014

- Launched the Analytics department's first live stats application for games by developing an MS Excel spreadsheet that streamed real-time data to coaching staff's electronic devices.
- Coordinated and organized the department's video database by filming, managing, and sharing training and game footage to the entire soccer operations department made up of 100+ employees.

PROJECTS

The Current State of COVID-19 From 3 Different Perspectives | App

 $February\ 2021-March\ 2021$

- Developed a real-time dashboard to analyze the state of COVID-19 from three perspectives (Globally, WHO Regions, and the US).
- Applied Pandas and NumPy on 11 different data frames for data cleaning and wrangling purposes to update the data.
- Created advanced visualizations (Plotly, Folium) and published the dashboard using Streamlit.

An Examination of Fatal Force by Police in the United States | GitHub

October 2020 – November 2020

- Examined the factors that play into the horrible event of a fatal shooting by the US police.
- Predicted mental illness status by implementing a Logistic Regression, SVC, SGD, Decision Tree, and Random Forest.
- Improved the accuracy score from 72% to 77% by fine-tuning the final model using RandomizedSearchCV.

Predicting number of COVID-19 deaths using Time Series Analysis | GitHub

August 2020 – September 2020

- Predicted the number of deaths in the US starting from August 1 August 21 and August 1 November 1.
- Implemented the differencing technique to make the data stationary to conduct a time series analysis using the ARIMA model.
- \bullet Forecasted 18589 deaths, and CNN projected 19000 deaths between August 1 and August 21.
- Forecasted 235967 deaths, and CNN projected 231000 deaths between August 1 and November 1. The actual death number, according to Worldometer, was 236072.

VOLUNTEER EXPERIENCE

Student Ambassador Data Science Master's Program, University of Denver, Denver, CO, USA

Present

• Speak to prospective students and participate in student panel webinars, round tables, and in PR opportunities.
