+ Projects

Bloccit | Front-End & Back-End Developer
- A reddit inspired web app that has been built with Node.JS, Express, PostgreSQL, Jasmine and Embedded JavaScript.
- Used Test Driven Development technique to provide reliable and working code.
- Users can create topics, posts, and comments as well as vote and favorite posts.

Blocipedia | Front-End & Back-End Developer
- An application that allows users to create, collaborate, and share wikis.
- Built with Node.JS, Express, PostgreSQL, Jasmine, SendGrid, and Embedded JavaScript.
- Used Test Driven Development to produce quality code.
- Standard Users have the ability to contribute to and create public wikis while Premium users can create private wikis and add contributors.

Jam-NM | Front-End Developer
- Built with React, HTML5 and CSS3.
- Jam-NM is an online music player designed to play music for anyone who loves their music. Users have the ability to listen to full albums and enjoy their music to the fullest in a user-friendly way.

ChitChat | Front-End Developer
- Built with React, HTML5, CSS3, Firebase's database and authentication systems.
- ChitChat brings social aspect to live allowing users to live chat in a simple way.

+ Experience

2015 - 2018

Performance Analyst & Scout
Vancouver Whitecaps FC
- Helped the team achieve the MLS playoffs in 2015,2017, win the 2015 Amway Canadian Championship and advance to the 2017 Concacaf Champions league semi-final, by providing in depth analytical reports on the opposition to the MLS coaching staff.
- Led the analysis & scouting department after losing supervisor. Managed the department during the transition phase without a drop-in output, by providing consistent services to the coaching and playing staff.

2014 - 2015

Performance Analyst Internship
Vancouver Whitecaps FC
- Helped the Analysis department manage club's video database, by filming and organizing training sessions and games.
- Assisted the Analysis department improve their statistical analysis for games and practices, by implementing new live stats applications.

2007 - 2010

Professional Soccer Player
Vancouver Whitecaps FC
- Attained the USL Championship in 2008 through excellent teamwork and discipline by competing against 11 professional teams across North America.
- Surpassed the youth teams and made the professional team in 2008, by performing and battling against the top 25 players in the academy.

+ Education

2018 - present

Bloc - Full Stack Web Development Apprenticeship
- 1000+ hours on front-end and back-end fundamentals. Modules included: Front-End & Programming Fundamentals, Front-End Frameworks, Computer Science Fundamentals & Server-Side JS with Node.js.

2010 - 2015

UBC Sauder School Of Business - Bachelor Of Commerce
- Specialization: Accounting
- UBC Soccer Scholarship, 2010 - 2015: awarded for outstanding soccer achievement.
- All Canadian Academics, 2011 - 2012: awarded for achieving an academic standing of 82% while playing on the UBC men's soccer varsity team.
